

Trend color black

New look, proven quality

the unique combination of function and style

The high-quality stainless steel products of the **mt blackLine** in elegant black and matt black. This means they retain the high resistance of stainless steel and do not change color even with intensive use! They also offer improved resistance to fingerprints and soiling.

Black stainless steel blends seamlessly into all environments and styles - whether on board, in the leisure sector or in architecture. From minimalist industrial design to classic luxury interiors and historical replicas, the **mt blackLine** is extremely versatile.

It is the perfect addition to the Marinotech family with its wide range of products and the exclusive product lines **mt duplexLine**, **mt securLine** and the **mt serie**.

Large selection

blackened components - for the perfect design

Matching black **cleats** and **D-shackles**: **black screws**, **ring nuts**, **thimbles** and much more - for a uniform overall appearance.

Our specials compactly

The mt product lines of the Marinotech family

mt blackLine >>

Perfect elegance in black: the black product range is on-trend and, as usual, hard-wearing and extremely resistant to soiling of all kinds.

mt securLine >>

exclusive and secure with the secur TX pin - high-quality connecting and fastening elements for the best hold and protection against tampering - anywhere. From the shackle to the mounting plate.

mt duplexLine >>

The powerful combination of strength and corrosion resistance in D6 quality for demanding applications where chemicals, salt and seawater etc. are used.

mt serie >> ur own product series in tested Marinotech quality.
