

## Our In-House Brand

# Marinetech Exclusive Label

### Customized solutions for all industries

With our Marinetech house brand, we are expanding our stainless steel product line to include items that have not previously been available on the market in this form. These may include tried-and-true standard items from our product range, which we have manufactured using higher-quality materials, in additional sizes, or in a wider range of colors. In addition, the mt series also includes innovative in-house developments featuring entirely new functions. Today, the mt series already comprises more than 30 in-house product developments—and new ones are added every year.

### Even More Innovation

## mt Flush Fasteners®

These countersunk screws, made of high-quality AISI 316 stainless steel and featuring innovative F-Head™ technology, provide a nearly flush finish thanks to their countersunk drive—no snagging, less dirt, and clean surfaces. Now available in sizes M3 to M8
