

Design Meets Function

mt blackLine

Elegance in Black

The mt blackLine represents a unique combination of function, quality, and style. From blackened AISI 316 grade wire rope to turnbuckles and cleats, right through to thimbles, wire rope clamps, and fastening accessories—everything is perfectly coordinated!

To ensure a consistent look down to the smallest detail, screws, nuts, and other fasteners are also available in black. The blackened stainless steel blends harmoniously into a wide variety of settings — from marine and recreational applications to architecture.
